SKILLS

- JavaScript (ES6+), TypeScript, HTML5, CSS3(Sass), TailwindCSS, ReactJS, NextJS, NodeJS, ExpressJS, RESTful APIs, GraphQL, SQL (PostgreSQL/MySQL), NoSQL (MongoDB/Redis), AWS, Docker, Git, Jest, Maestro

WORK EXPERIENCE

Avazoo Worldwide LTD. | Full-Stack Developer

Belize | Remote

ReactJS, React Native(Expo), Node.js(Express), Zustand, RESTful API, AWS, NextJS, TailwindCSS

Jun 2022 - Dec 2024

- Led a full rebuild of the company's mobile app, improving load times and user experience and adding key features like a referral system, location targeting, merchant payments and SDK integrations for 12,000 users
- Led modernization of legacy web-app with ReactJS(Inertia) to handle large datasets more efficiently, improving back-office tool performance and reducing data processing time from ~1 minute to under ~5 seconds
- Automated CI/CD pipelines using GitLab CI/CD, integrating Jest for testing to reduce deployment errors and ensure stable, on-time releases

AppTech Gateway | Full-Stack Developer

Belize | Remote

ReactJS, Redux, Node.js(Express), RESTful API, AWS, NextJS, TailwindCSS

Sep 2021 - Jun 2022

- Built a cross-platform matching game, deployed across all company products (mobile + web app) with complex state management for seamless synchronization. Integrated a centralized API to track and analyze user actions
- Developed a scalable Node.js/Express services handling core game logic, real-time user matching, and analytics - processing concurrent player interactions
- Overhauled legacy web-app's performance and responsiveness with front-end techniques—including lazy loading, optimized asset delivery, asynchronous data loading, and throttle/debounce patterns for heavy UI interactions— and with Laravel's performance stack (Page Speed, Telescope, Horizon)

Entinux LTD. | Front-end Developer

Hong Kong | Remote

Angular, Ionic, React, CodeIgniter, Javascript, CSS3(SASS)

Apr 2019 - Aug 2021

- Developed multiple high-traffic mobile applications, including a dating platform, a digital rewards system, and a social services app - designed to handle thousands of concurrent daily users across Hong Kong. Optimized real-time data flows and UI performance to support diverse user activities
- Implemented WCAG 2.1 AA accessibility standards across some Hong Kong government digital projects, ensuring compliance with public sector web guidelines while expanding reach to users with disabilities
- Led implementation of design systems and developed reusable UI components for different projects to ensure consistency and scalability

Crate Club | Front-end Developer

United States | Remote

Javascript(Typescript), HTML5, CSS3(SASS), Laravel, MySQL

Mar 2018 - Apr 2019

- Spearheaded frontend development workflows, introducing modern tooling (Sass, ESLint, Sentry) and enforcing coding standards to reduce bugs and accelerate team productivity
- Built accessible, SEO-optimized frontend features from Figma designs, integrating payment solutions (Stripe, PayPal) with full WCAG compliance and performance enhancements
- Led UI/UX design in Figma for cross-platform apps (web + mobile) and marketing assets, streamlining design-to-dev handoff and ensuring brand consistency

NexusBond Asia Inc. | Lead Senior Developer / Designer

Philippines | On-site

Javascript, HTML5, CSS3(SASS), Bootstrap, Wordpress, PHP

Jan 2016 - Feb 2018

- Developed and deployed production-ready websites using HTML5, CSS3, Sass, JavaScript, jQuery, and WordPress
- Built custom WordPress themes and plugins from scratch, leveraging Advanced Custom Fields (ACF) for dynamic content
- Mentored junior developers in WordPress theme development, templating, hooks and 3rd party integration

EDUCATION

Liceo de Cagayan University | Bachelor of Science in Information Technology

Cagayan de Oro City
